

ANDERSON CENTER MANAGEMENT AND LEADERSHIP DEVELOPMENT

FORUM OVERVIEW

This forum, which benefits both individuals and teams, is based upon Franklin Covey's "Speed of Trust" curriculum. As Franklin Covey's team and others have noted, we have entered a "**Collaborative Economy**." Trust always affects two measurable outcomes – speed and cost. When trust increases, so does productivity, which leads to lower costs. Those who are trusted and collaborative are also more likely to increase sales and win the best projects.

During the 1-day-forum, participants will be oriented to the core competencies for The Speed of Trust. They'll be equipped with powerful and practical leadership tools for the case for trust:

- Self Trust:
 - *The principle of credibility*
 - Increase your personal credibility
- Relationship Trust:
 - *The principle of behavior*
 - Behave in ways that inspire trust
- Participants will take self-assessments in both Self & Relationship trust.
- An action plan for development and improvement will be created.
